**DETAILED ACTION**

***Response to Arguments***

Applicant's arguments filed 4/5/02 have been fully considered but they are not persuasive. The applicant's arguments are not being considered because of the unexecuted declaration. Note that the inventive entity of the instant application and the European Patent No. EP 0,916,891 A2, are totally different. Zheng just happens to be one of the inventors in the European patent. Therefore, the previous rejection still stands.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-39 stand rejected under 35 U.S.C. 103(a) as being unpatentable over Pearlstein et al, applied in the office action dated 10/04/01.
